The PM Catalog provides a comprehensive update to its predecessor, Catalog 176 which has become legendary in the industry. We continue with our goal to provide the clockmaker, watchmaker, technician and hobbyist with the widest selection of quality tools and components at the most reasonable prices.

Several items with limited popularity have been dropped from the catalog but are still available. We will continue to accept inquiries for items included in Catalog 176 such as plastic clock crystals and parts for obsolete clock movements

Through the technical advancements of electronic publishing, new additions of our catalog will be issued more frequently than in the past.

When using and ordering from this catalog please follow these guidelines:

STOCK NUMBERS

A great deal of effort was made in providing clear stock numbers for every item in this catalog. When ordering merchandise PLEASE USE THE STOCK NUMBER.

SHIPPING INSTRUCTIONS

Unless specified by the buyer, the most suitable and efficient method will be employed. Please supply a street address as well as a post office box when available.

PRICES

Prices are specified in our accompanying price list. Updates are released annually. If your price list is more than a year old please request the latest edition.

GUARANTEE

All products shown in this catalog are guaranteed to be free of defects in material or workmanship. They are further guaranteed to perform the function for which they were intended. If upon first use or inspection the merchandise is found to be defective it should be returned for credit or exchange with an explanation of the problem. This guarantee only applies to merchandise which has not been subjected to misuse or abuse and which has not been modified.

RETURNS

Returns can be permitted only for defective or incorrect merchandise within 15 days of shipment. To return an item you must first obtain a **Return Authorization** from PM. **Special Order** items cannot be returned.
